September 22, 2014
Honorable Mayor and Council Members:
It is my pleasure to present to you the proposed 2015 Annual Operating Budget and the 2015-2019 Capital Improvement Program for the City of Northglenn. These documents are being presented pursuant to Section 8.3 of the City Charter.

The goals of the 2015 proposed budget are to successfully meet the service demands of our community, augment reinvestment in public assets and infrastructure, to fortify the financial position of the organization and to plan for the future of Northglenn.

The proposed budget for 2015 includes a number of items that follow-up on components in the Strategic Plan adopted this year by the City Council. These include:

- $\quad$ Phase 2 of the rewrite of our Zoning Code $(\$ 80,000)$
- Development of a Station Area Master Plan for the $112^{\text {th }}$ Ave FasTracks Station $(\$ 120,000)$
- Development of a Pedestrian Bike Mobility and Trail Connection Development Plan $(\$ 120,000)$ in furtherance of the Corridor Plan
- An allowance for expenditures that may be needed to develop a Master Plan for the Karl's Farm/Lambertson Property/M\&O area $(\$ 100,000)$ to take advantage of the $124^{\text {th }}$ Ave/Eastlake FasTracks Station

Other initiatives that will follow from the Strategic Plan have not been specifically budgeted in this proposed budget because we do not have enough information at this time to know what those costs may be. Examples include: expenses that may be recommended by the Marketing Plan; expenses to develop a master plan for the proposed Police Department/Municipal Courts/City Hall complex; recommendations that may arise from the Citywide Sustainability Analysis; and funding for new special events.

The following is a summary of the highlights of the budget:

## General Fund

Overall, revenues in the General Fund are projected to increase by $\$ 3,032,868$ over the 2014 budget (15\%) with the largest increase $(\$ 1,751,941)$ occurring in the Taxes category. In this category, the largest increase is in Sales and Use tax collections which are estimated to increase $\$ 1,543,747$ (14\%) over the 2014 budget estimate, reflecting both a rebounding economy and the introduction of recreational marijuana sales. Projected total sales tax revenue from the marijuana industry, both medical and recreational, is estimated to be approximately $\$ 1$ million in 2015. The other sizeable
increase in this category is in Fines and Forfeitures, which are projected to increase by $\$ 857,834$ (76\%) over the 2014 budget. This increase is attributable to an increase in Traffic Fines. Increases are also projected in the Intergovernmental Revenues category with an increase of \$93,953 (5\%) over the 2014 budget, Licenses and Permits (\$223,770) and User Charges and Fees \$70,670 (3\%). The increase in Licenses and Permits is attributable to anticipated new development.

The Revenue Budget projection does not reflect the proposed increase in Marijuana Sales Taxes, which is on the ballot for November's General Election.

On the expenditure side, we are requesting an increase of $\$ 631,823$ (4\%) in the Personnel category. The proposed increases in this category include a number of factors. First, a request for market adjustments for employees in classifications whose pay ranges are below market based on our salary survey, and a $3 \%$ merit increase to be granted to eligible employees, except Police Officers, throughout the year depending on their anniversary of employment with the City. For Police Officers, who are not at the top of their pay scale, we are proposing that they receive a market adjustment in January and another one-step increase on their anniversary date. These increases would continue the accelerated program to maintain salary levels for our Police Officers on par with the pay received by their peers in other local agencies with which we are in competition. The goal is to reduce the number of officers who leave our employ after being trained by us and having worked for us for two or three years. This is consistent with the recommendation we made to the Council at your August 18, 2014 Study Session.

Second, I am also proposing the addition of three full-time positions and one-half of the cost of another position whose cost will be shared with the Water and Wastewater Fund.

The first, a Planner in the Planning and Development Department ( $\$ 70,500$ ), would enhance the ability of the department to accomplish the many planning studies it has on its work program (Zoning Code Update, $120^{\text {th }}$ Ave. Widening, Citywide Sustainability Analysis, and the studies generated by the Corridor Plan) as well as helping them respond to the demands placed upon us by the proposed development projects related to the enhancements to I-25 and the expansion of the FasTracks system.

The second, an Administrative Specialist in the Police Department $(\$ 59,211)$ will help to provide administrative support primarily to the Commanders of the Patrol Division. Without this support, these Commanders must perform administrative tasks themselves reducing their efficiency and the time they have available to provide supervision to the police officers in the field. Until 2003, every division in the department had an administrative support position. Currently, there is only one such position in the department.

The third requested position is a Police Records Specialist $(\$ 50,451)$. This position is needed due to an increase in the work load in this section. The Records Section is staffed 24/7, 365 days per year providing complex clerical and communications support to the Police Department. It is critical that this section stays on top of its work load.

The fourth requested position, which would be shared with the Water and Wastewater Fund, is an Engineering Manager. The total cost of this position is $\$ 108,044$, with one half of this cost $(\$ 54,022)$ being borne by the General Fund. The Engineering Manager will allow the Public Works Department to be restructured into three divisions: Maintenance and Operations; Utilities; and Utility Planning and Engineering. The Engineering Manager would be responsible for supervising the Engineering Division, which would include the following: Administration, Engineering, Water Resources,

Industrial Pretreatment and Storm Water. This structure would provide the department with an additional resource to enable it to pursue capital projects in a timely manner, among other benefits.

Third, the budget request includes requests to increase the number of hours of several positions in the Parks, Recreation and Cultural Services Department. These positions are: the Recreation Coordinator (Youth and Adults Sports) from 32 to 40 hours due to growth in participation in these programs ( $\$ 8,700$ ), and increasing the hours for one Guest Relations position and one Custodian position at the Recreation Center from 20 to 32 hours to meet the increased demands at this facility $(\$ 5,300)$.

We are fortunate this year that we are anticipating only a $1.8 \%$ increase in health insurance and a $5 \%$ increase in workers compensation premiums.

In 2015, we will be assuming the full cost of the three Police Officer positions that have been funded for the past three years through the COPS grant program. This cost $(\$ 239,280)$ is reflected in the budget through a decrease in the grant funds we have been receiving to offset the cost of these positions.

The Purchased Services category, which reflects our costs to plan for our future, is requested to increase by $\$ 631,117$. The items which account for this increase are listed in the Budget Package Summary, which is included in the budget document.

The other operating expenditure categories, which reflect our costs to meet the service demands of our community, are requested to increase by $\$ 1,004,225$. Included in this increase are a number of items which are also listed in the Budget Package Summary.

The Capital Outlay category reflects an increase of $\$ 692,045$ attributable to a number of projects, which reflect our reinvestment in our community assets and infrastructure. These projects are also included in the Budget Package Summary.

The Fund Balance of the General Fund is budgeted to increase by $\$ 329,161$. While revenue has seen a positive trend upward with new construction, development and the marijuana industry, expenditures have been budgeted to increase at a slower rate. This provides for a structurally balanced budget in 2015 and flexibility in developing plans for future spending thus helping to fortify our financial position.

## Water and Wastewater Fund

Revenues in the Water and Wastewater Fund are predicted to be \$ 1,078,100 (9\%) more in 2015 than the 2014 budget. The increase is attributable primarily to increases in sales and use tax revenues of \$746,175.

On the expenditure side, in the Personnel category, we are requesting an increase of \$291,631 (7\%). This increase is attributable to the Market adjustment and merit increases described above. In addition, I am requesting the addition of two positions, the costs of which are completely charged to this fund as well as one position whose costs are shared with the General Fund.

The first position is a Chief Plant Operator at the Water Treatment Plant $(\$ 88,176)$. The duties of this position are currently being handled by a plant operator, who is also responsible for staffing a normal shift. This arrangement does not permit him to provide appropriate oversight and guidance to the other
operators. It is critical to our water system that we provide such guidance and oversight to the operators to ensure that the water we produce meets all regulatory standards.

The second position, a Laboratory Analyst, $(\$ 74,315)$ will provide support to the Lab Supervisor in providing the necessary testing for both the water and waste water treatment plants. This additional position will also provide staffing for the laboratory at the waste water treatment plant, which is to be constructed as a part of the headworks project.

The position, which is to be shared with the General Fund, Engineering Manager, is described under the General Fund section of this Budget Message.

The Capital Outlay category, which reflects our reinvestment in water and sewer system assets and infrastructure, shows an increase of $\$ 4,965,283$ (110\%) primarily due to the construction of the headworks and clarifier at the waste water treatment plant $(\$ 6,130,000)$. Additional capital outlay expenditures requested in the 2015 budget include:

## Engineering Division

- a replacement pick-up truck $(\$ 32,000)$ which has a high rating from Fleet Maintenance meaning that it should be replaced

## Distribution and Collection Division

- the replacement of a backhoe $(\$ 190,000)$ and jet vac truck $(\$ 350,000)$ both of which have high ratings from the Fleet Management division
- the purchase of a self-priming non-clog pump for use on the wastewater collection system $(\$ 60,000)$ to provide back-up in the event of a lift-station failure

Water System and Treatment Plant

- a replacement for one of the three variable frequency drives at the water booster station $(\$ 25,000)$ which has gone beyond its expected life
- a replacement for one of the two pressure reducing valves at the terminal reservoir $(\$ 35,000)$ which has gone beyond its expected life
- replacement of filter media in two of the eight filters at the water treatment plant $(\$ 100,000)$ which have gone beyond their expected lives

Waste Water System and Treatment Plant

- replacement of the three pumps at the Fox Run Lift Station $(\$ 36,000)$, which have gone beyond their expected lives
- replacement of one bank of ultra-violet (UV) lamps at the waste water treatment plant $(\$ 24,000)$ as required by the replacement schedule and to maintain the effectiveness of the UV disinfectant process.

If this budget is approved as submitted, Unassigned Fund Balance in this Fund will be reduced by $\$ 6.8$ million dollars to a total of $\$ 1,199,056$ or approximately $6.1 \%$ of the total budget for the fund. This decrease is attributable to the cash-funding of the headworks and clarifier project, which has been anticipated for a number of years. While this is a dramatic decrease, we anticipate that, beginning in

2017 and continuing for the next several years, we will be able to add back to the balance in this fund as capital outlay expenses will be substantially reduced. The amount by which we anticipate being able to increase fund balance each year during this period will be at least $\$ 1.6$ million.

I am also recommending that we implement the fifth of the water rate increases that were recommended a number of years ago in the water rate study. I recommend that we implement this increase for all water used after July 1, 2015, which would mean that the increase would be reflected beginning with water bills received in August. This would amount to an $11 \%$ increase and would cost our average water customer approximately $\$ 10$ in their summer water bills. This increase would generate $\$ 285,000$ in additional revenue in 2015 and $\$ 710,000$ in additional revenue annually thereafter depending upon weather conditions and conservation measures taken by our customers. The revenue received from this increase will be used to help us offset some of the costs we will incur when we undertake the major upgrade to our waste water treatment plant in 2021 . The estimated revenue from this increase was not included in the budget pending approval by City Council.

## Stormwater Fund

Revenues in the Storm Water Fund are predicted to be essentially the same in 2015 as in 2014 showing an increase of $\$ 31,720$ ( $7 \%$ ). Likewise, expenditures in this fund are predicted to be essentially the same. Since revenues will exceed expenditures by $\$ 129,364$, we will be making a contribution to the fund balance in this fund, which we estimate will total \$905,458 at the end of 2015.

## Sanitation Fund

Revenues in the Sanitation Fund are predicted to be \$30,928 (2\%) greater in 2015 than in the 2014 budget. The increase is attributable to an expected increase in recycling and special pickup fee revenues.

On the expenditure side, we are anticipating spending $\$ 225,144$ less in 2015 than in 2014. Overall, we are requesting to appropriate out of fund balance $\$ 376,292$ in order to balance the operating budget for this fund. This would result in an estimated fund balance in this fund of $\$ 1,513,964$.

The budget for this fund reflects $\$ 535,000$ in capital outlay, which includes the following items: replacement of two (2) automated trash trucks (\$260,000 each) both of which have high ratings, indicating a need for replacement; and the replacement of an arm for an automated trash truck $(\$ 15,000)$.

I would like to express my appreciation to all of the department heads for the work they put in on their budgets this year. I would especially like to thank Jason Loveland for the lead role he plays in developing the City's annual budget. I would also like to thank Paula Jensen for her work on the Personnel related portions of the budget. Developing the 2015 proposed budget was indeed a team effort.

Sincerely,

City-Wide Expenditures By Department

## Legislative

Joyce Downing, Mayor

## Department Description

The Legislative Department includes three divisions: City Council, City Attorney, and Boards and Commissions.

The City Council is comprised of the Mayor and two council members elected from each of the City's four wards. The City Council serves as the legislative and governing body of the City of Northglenn and is responsible for establishing City policies and goals.

The City Attorney serves as legal counsel for the City and represents the City in litigation in state and federal courts and before local administrative agencies. The City Attorney advises Council, City Manager, administrative staff, and board members on legal matters, drafts ordinances, resolutions, and contracts for the City. The City Attorney is also responsible for the prosecution of all cases in Municipal Court.

The City of Northglenn has 10 boards and commissions, which provide various opportunities for citizens to become involved in the City. The boards are created by the City Charter, by Ordinance, or by Resolution and include the following: Board of Adjustments, Citizens' Affairs Board, Elections Commission, Historic Preservation Commission, Liquor Licensing Authority, Parks and Recreation Advisory Board, Planning Commission, Victim Assistance and Law Enforcement Board, and Youth Commission.

2014 Achievements
Adopted a Strategic Plan for the Organization

Goals \& Objectives

1. Upgraded city infrastructure and facilities
2. Fiscal responsible city government
3. Strong, competitive businesses
4. Community governance with civic partnerships
5. Clean and beautiful city

## Public Works

## David Willett, Director of Public Works

## Department Description

The Public Works Department is responsible for the capital improvements, maintenance and repair of the City's transportation and utility infrastructure, public buildings and city-owned fleet and machinery. The Department also manages and operates a water treatment plant and a wastewater treatment plant, and the City's trash collection and recycling activities. The Department operates within four funds and is organized into fourteen divisions which provide the means to allocate costs to appropriate service areas.

## 2014 Achievements

- Capital Equipment - Introduced pro forma forecasting models for operationg divisions: Distribution/Collection, and Streets.
- Pavement Management - Completed the first year intregrated pavement treatments that better address pavement degradation.
- Service Delivery Analysis - Completed a staffing versus services analysis.
- Geographic Information Systems - Completed storm system. Using GIS to map all concrete (trails and streets) programs.
- Roadway Design (arterial) - Completed design on multi-million dollar roadway near 112th Avenue RTD.

Goals \& Objectives

- Capital Equipment Program - Continue to refine replacement criteria, align purchase program in a fiscally responsible manner.
- Pavement Management Program - Establish pavement management matrix for varoius treaments vs expected life cycle.
- Geographic Information Systems - Complete sign inventory.
- Staffing - Prepare staffing plan for expansion of the Wastewater Treatment Plant.
