Map of ponds and surface water monitoring sites.

Concerns with DOE proposal

- **Dam Breaching**
 - Ponds are the last line of defense
 - No contingency plan in place
 - Limited post closure water quality period of record
 - Still modifying the remedies & moving dirt
 - Precipitation pattern relatively stable since closure
- **Moving Points of Compliance**
 - Resets water quality record – trending, modeling
 - Broomfield will no longer be able to take duplicate samples
 - Raises questions w the Woman Creek Reservoir Authority Agreement

For more information

- Public is invited to attend the April 5, 2010 Rocky Flats Stewardship Council Meeting – Rocky Mountain Metropolitan Airport, 11755 Airport Way, Broomfield, 8:30 a.m.
