FINANCE MEMORANDUM

#07-05

August 23, 2007

TO: Honorable Mayor Kathleen M. Novak and City Council Members

FROM: A.J. Krieger, City Manager 
Brent Worthington, Finance Director 

SUBJECT: CB-1633, Statewide Sales Tax Address Database/Hold Harmless

RECOMMENDATION:

Approve the CB-1633, which holds vendors harmless from interest and penalties on tax assessments if the vendor properly used one of the approved address locator databases.

BACKGROUND:

Municipal boundaries in the Denver metro area generally do not conform with city-designated zip codes established by the U.S. Postal Service. Historically, vendors (particularly those located out of state) calculate sales tax based on the tax jurisdictions implied by the mailing address. As a result, it's common for the sales tax on deliveries to be remitted to the wrong city.

The Colorado Municipal League has been working with the State Department of Revenue to certify two commercially developed address locator databases. These address locators have been tested and found to be accurate; they are now available for use by any and all vendors. In conjunction with this project, the CML is asking Colorado Home Rule Cities to enact an ordinance that would exempt interest and penalty charges if an audit reveals the vendor remitted sales tax to the wrong jurisdiction *due solely to an error in the database.*

This ordinance would NOT prevent the City from recovering the tax due.

POTENTIAL OBJECTION:

City Staff is not aware of any specific opposition to the proposed contract extension.

BUDGET/TIME IMPLICATIONS:

Indeterminate. Revenue could be slightly reduced from the interest and penalty exemption; however, Northglenn rarely collects such interest and penalty. On the other hand, it's likely that taxation on delivered goods will become more accurate, resulting in more revenue to the City as deliveries are properly coded to Northglenn.
