PLANNING AND DEVELOPMENT MEMORANDUM
#11-06

February 24, 2011

TO: Honorable Mayor Joyce Downing and City Council Members

FROM: William Simmons, City Manager *WAS*
James Hayes, Director, Planning and Development Department *JH*
Eric Pendley, Chief Building Official *EP*

SUBJECT: CR-1737 through CR-1745: Adoption of 2009 International (Building) Codes

RECOMMENDATION:

Attached to this memorandum, are nine (9) ordinances, which if approved, will adopt the 2009 International Codes for the City of Northglenn. This memorandum has been prepared to provide the Council with some background information.

BACKGROUND:

Every three years, new International Building Codes are released and historically, the City has adopted the codes with some minor amendments. There are several reasons to adopt the most up-to-date codes including advances in building technologies and enhanced life safety improvements. The Building Division is currently operating under the 2006 International Codes and 2008 National Electric Code and is requesting to schedule the 2009 International Codes and an updated Electrical Permit Fee Schedule for adoption by the City Council.

Minor amendments, consistent with previous adoptions, have been made and reviewed by North Metro Fire Rescue Authority and City Attorney.

<i>Current Adopted Code</i>	<i>Proposed Code Adoption</i>
2006 International Residential Code (IRC)	2009 IRC
2006 International Property Maintenance Code (IPMC)	2009 IPMC
2006 International Plumbing Code (IPC)	2009 IPC
2006 International Mechanical Code (IMC)	2009 IMC
2006 International Fuel Gas Code (IFGC)	2009 IFGC
2006 International Fire Code (IFC)	2009 IFC
2006 International Energy Conservation Code (IECC)	2009 IECC
2006 International Existing Building Code (IEBC)	2009 IEBC
2006 International Building Code (IBC)	2009 IBC
2008 National Electric Code (NEC)	No change
(less than) 2008 Electrical Permit Fee Schedule	Sept. 1, 2010 schedule

Staff met with the City Council in a study session on December 2, 2010 to review the process for adopting new international codes and the updated electrical fee. On December 22, 2010, staff met with Council Members Wieneke and Snetzinger and on January 24, 2011 with Council Member Wieneke. A review of the proposed code amendments was completed and minor revisions to the amendments were completed by the Chief Building Official. A second study session was held on February 3, 2011 to review any final comments and to obtain direction to schedule the ordinances for first reading. We believe the latest revision of the codes is ready for

final discussion and approval by the City Council. A complete set of ordinances and summary of amendments is attached to this memorandum for reference purposes.

However, there is an issue with the IFC (fire code) and amendments proposed by the North Metro Fire Rescue District. NMFRD is requesting specific amendments related to false alarm fees and charges, which they prefer to have memorialized in the IFC. Staff is including their proposed language as a separate attachment for the City Council to consider. Staff from NMFRD attended the study session February 3, 2011 to reiterate their position and discuss the issue with City Council. There was no consensus amongst the City Council regarding this issue, and the proposed amendment has been included as a separate attachment for consideration. Staff is requesting final direction at the first reading, and will finalize the ordinance for the second reading, tentatively scheduled for March 24, 2011.

POTENTIAL OBJECTION:

Staff notified all licensed contractors via postcard of the proposal to adopt the new International Codes and Electrical Permit Fee Schedule. No objections were received. It is important to note there will be no impact on existing residential or commercial structures in the City. Expansion or enlargement of buildings will require compliance with the new codes, and the adoption of the IEBC (existing buildings) will assist contractors and designers in exempting existing buildings from compliance with the new code.

BUDGET/TIME IMPLICATIONS:

The 2009 International Codes have been available for approximately one year and it is important to adopt the latest version to keep pace with all of the latest life safety revisions. The 2009 IPC, IMC, IFGC became effective on April 1, 2010 and the balance of the codes (IRC, IPMC, IFC, IECC, IEBC, IBC) have an effective date of July 1, 2010. These codes apply to all State projects and adoption of these codes on a local level is critical to ensure consistency with State law.
