

**PUBLIC WORKS DEPARTMENT
MEMORANDUM #2017 – 52**

DATE: September 25, 2017
TO: Honorable Mayor Joyce Downing and City Council Members
FROM: James A. Hayes, AICP – City Manager 
David H. Willett – Director of Public Works 
SUBJECT: **CR – 96**
Newpath License Agreement

PURPOSE

City Council will be considering a Resolution to approve a Master License Agreement between the City and Newpath Networks, LLC (“Newpath”) for authorization to place Newpath’s facilities, known as “small cell wireless facilities,” in the City Right-of-Way (ROW).

BACKGROUND

Newpath is a small cell wireless facility provider. Newpath has approached a number of jurisdictions in the Denver metro area, and Northglenn’s negotiation of the draft agreement has tracked in a similar fashion as the agreement the City negotiated with Mobilitie earlier this year.

Practically speaking this Master License Agreement attempts to balance the interests of the City in managing its ROW without unduly hindering Newpath as a small cell wireless provider to be able to access the ROW consistent with the FCC’s policy direction.

BUDGET IMPLICATIONS

In addition to any building permit fees required by the City, the Annual License Fee per Communication Site shall be required as delineated in Section 5. FEES, of the Master License Agreement. Also in the event it is necessary to relocate a Newpath facility as part of a City project, such relocation will occur at Newpath’s sole cost.

STAFF RECOMMENDATION

Attached to this memorandum is a Resolution that, if approved would authorize the Mayor to execute a Master License Agreement between the City of Northglenn and **Newpath Networks, LLC**, for the use of Public Right-of-Way. Staff recommends approval of the Master License Agreement.

- (a) **Provision of Communication Service** – Public Rights-of-Way may be used by Licensee, seven (7) days a week, twenty-four (24) hours a day, only for the installation, construction, use, maintenance, operation, repair, modification, replacement and upgrade of the Communication Facility by Licensee from time to time for Telecommunication Service and/or Backhaul Service or to comply with applicable law, and not for any other purpose whatsoever. This Agreement shall include new types of Telecommunication Equipment or Backhaul Equipment that may evolve or be adopted using wireless or other technologies. SECTION 4. TERM AND AMENDMENTS

- (a) **Term of Agreement** – The term of this Agreement shall be for fifteen (15) years commencing on the Effective Date and ending at midnight on the last day of the term (the “Term”), provided however that, unless either Party provides written notice to the other Party prior to expiration of the Term that the notifying Party will not renew the Term, the Term will automatically renew for one (1) additional fifteen (15) year period, upon the same terms and conditions set forth in this Agreement. Notwithstanding the foregoing, in no event shall the Term expire until: (i) terminated pursuant to Section 18, or (ii) the expiration or earlier termination of all Supplemental Licenses entered into hereunder.
- (b) **Supplemental Licenses** – Each Communication Site will be subject to a Supplemental License pursuant to the terms and conditions of this Agreement. The term of each Supplemental License shall be for (5) years commencing on the date the corresponding Communication Site Application is approved as provided hereunder (“Commencement Date”), provided however that, so long as the Term is still in effect, unless Licensee provides written notice to the City prior to the expiration of the then current term that Licensee will not renew the term, the term will automatically renew for consecutive five (5) year periods, upon the same terms and conditions set forth in this Agreement.
- (c) **Termination of Supplemental Licenses** – A Supplemental License may be terminated prior to the expiration of the Term: (i) by Licensor upon notice to Licensee, if Licensee fails to pay any amount when due hereunder concerning the

applicable Communication Facility and such failure continues for fifteen (15) days after Licensee's receipt of written notice of nonpayment from Licensor; or (ii) by either Party upon notice to the other Party, if such other Party materially breaches any provision of this Agreement concerning the applicable Communication Facility and the breach not cured within sixty (60) days after receipt of written notice of the breach from the non-breaching Party; or (iii) by Licensee, at any time, with or without cause, upon notice to Licensor.

- (d) **Effect of Termination** – All Annual License Fees paid prior to the expiration or earlier termination of the Supplemental License shall be retained by Licensor. Within thirty (30) days after such expiration or earlier termination, Licensee shall provide the City Representative with a schedule and timeline for removing the Communication Facility reasonably acceptable to the City Representative, excluding certain subsurface infrastructure, the permanent abandonment of which shall be deemed to occur on the 120th day after removal of the above-surface portions of the Communication Facility and shall be deemed a transfer of ownership of such subsurface infrastructure to the City and be deemed no longer part of the Communication Facility, provided, however, that permanent abandonment shall not be deemed to occur with respect to any portions expressly excluded from abandonment as specified in a notice from Licensee to Licensor during the 120-day period or as otherwise agreed to in writing between the Parties. Licensee shall continue to be liable to Licensor for the Annual License Fee prorated for every month that such Communication Facility remains in the Rights-of-Way and the Supplemental License shall be deemed to remain in effect until it is removed. After such removal, the Supplemental License shall be of no further force or effect and Licensee shall have no further obligations for the payment of Annual License Fees to Licensor in connection therewith.

SECTION 5. FEES

- (a) **Annual License Fee** – In addition to any building permit fees required by the City, the Annual License Fee per Communication Site shall be as provided in the following table depending on the type of Communication Facility thereat:

Type of Communication Facility:	Annual License Fee:
Telecommunication Equipment (or Wireless Backhaul Equipment) on a pole owned by Licensor	\$200.00
Landline Backhaul Equipment	The City’s standard underground utility rate as defined in section 16-2-9_ of the City’s Building Code

Licensee shall pay in advance to Licensor the Annual License Fee for the coming year for each Communication Site. The Annual License Fee for all Communication Sites installed during any given month will commence and be due on the first day of

the following month (the "License Fee Commencement Date"). Thereafter, on each annual anniversary of License Fee Commencement Date, Licensee shall pay Licensor the Annual License Fees.

- (b) **License Agreement Execution Fee** – Licensee shall pay to Licensor a one-time License Agreement Execution Fee of \$2,200.00 within thirty (30) days of the execution of this Agreement by Licensor ("License Agreement Execution Fee").
- (c) **Communication Site Application Fee** – Licensee shall pay to Licensor a one-time fee of \$50.00 concurrently with the submission to Licensor of each Communication Site Application.
- (d) **Late Payment Interest** – Any Annual License Fee, License Agreement Execution Fee, or Communication Site Application Fee (collectively, "Fees") that is not paid within fifteen (15) days of notice of non-payment will be assessed a rate of 10% per annum from that date.

City of Northglenn
Attn: Finance Director
11701 Community Center Drive
Northglenn, Colorado 80233-8061

SECTION 6. APPROVAL OF COMMUNICATION SITES

- (a) **Communication Site Application** – Licensee shall file with the City Representative a Communication Site Application for every proposed Communication Site. Said application form may be modified from time-to-time by the City Representative as deemed necessary in order to more efficiently process applications from Licensee. In accordance with the provisions of Senate Bill 17-1193 ("SB 17-1193"), Licensee shall be allowed to submit multiple Communication Facility designs in batches within one Communication Site Application.
- (b) **Communication Site Approval Process** – Upon filing of a Communication Site Application, the City Representative shall process the Communication Site Application within thirty (30) days, unless the City Representative and Licensee agree in writing to extend such process.
 - (1) **Rights-of-Way Determination** – The Licensor will determine whether the location (and any existing pole) identified by Licensee as a Communication Site is within City Rights-of-Way.

- (2) **Ownership of City Pole** – The Licensor will confirm the ownership of any City pole identified for installation of the Communication Facility.
- (3) **Site Eligibility** – Licensor shall determine whether a requested City pole or the location for the installation for a new pole is eligible as a Communication Site based on space availability. In addition, Licensor must determine whether public safety considerations prevent eligibility of a pole as a Communication Site. Concerning a request to install a new pole, Licensor shall determine whether Rights-of-Way Regulations and availability of Rights-of-Way prevent the pole installation at the requested location.

Licensee shall use commercially reasonable efforts to identify existing City or third-party poles to which Licensee can attach Telecommunication Equipment to the extent consistent with Licensee's technical and operational priorities and taking into account coverage objectives, technical specifications of available poles and pole space, field verification of constructability, jurisdictional requirements and permissions, and third-party approval requirements, and shall provide the City with a summary of any such commercially reasonable efforts.

Licensee shall erect a new pole for a Communication Site only in the event such commercially reasonable efforts to locate such facilities on an existing pole are unsuccessful.

- (4) **Review Criteria** – For each Communication Site Application, the City Representative shall:
 - a. Verify that the Communication Site Application is complete.
 - b. Review engineering design documents to determine:
 - i. compliance with contractual requirements under this Agreement; and
 - ii. no interference with City public safety radio system, traffic signal light system, or other communications components; and
 - iii. compliance with City pole attachment regulations for traffic light poles, including replacement of an electric meter with dual meters, if and as applicable.
 - c. Determine compliance with any other applicable requirements.

All Communication Site Applications requesting access to a City pole must include a load bearing study to determine whether the attachment of the Communication Facility may proceed without pole modification or whether the

installation will require pole reinforcement or replacement. If pole reinforcement or replacement is necessary, Licensee shall provide engineering design and specification drawings demonstrating the proposed alteration to the pole.

As appropriate, the City Representative shall require Licensee to make design modifications in order to comply with applicable contractual, regulatory, or legal requirements. Failure to make the requested design modifications shall result in an incomplete Communication Site Application which may not be processed under this Agreement.

- (5) **Approval of Application** –Only in the event that the Communication Site Application is complete and determined by the City to be in compliance with all applicable requirements as outlined above, the City Representative shall approve such Communication Site application within 90 days, or the application will be deemed approved consistent with SB 17-1193. The approval of the Communication Site Application requesting to attach to a City pole, or to install a new pole, shall authorize Licensee to proceed to obtain all generally applicable, ministerial permits that are required of all occupants of the Public Rights-of-Way, if required (collectively, “ROW Permit”). Licensee shall comply with the requirements of the Rights-of-Way Regulations. In addition to the Fees set forth herein, Licensee shall pay all authorized and promulgated one-time ROW Permit fees (“ROW Permit Fees”) and Building Permit fees, if required. Licensor may impose on the ROW Permit only those conditions that are necessary to protect structures in the Public Rights-of-Way, to ensure the proper restoration of the Public Rights-of-Way and any structures located therein, to provide for protection and the continuity of pedestrian and vehicular traffic, and otherwise to protect the safety of the public’s utilization of the Public Rights-of-Way. In no event shall Licensor treat Licensee’s Communication Site Applications or ROW Permit applications in a more burdensome manner than Licensor treats Public Rights-of-Way access permits of all other public utilities and telecommunications services providers. Upon obtaining a ROW Permit and Building Permit, if applicable, Licensee may proceed to install the Communication Facility in coordination with any affected City departments. Approval of a Communication Site Application related to the use of a pole owned by a third party, shall authorize Licensee to proceed with attachment process applicable to the pole owner and in accordance with the pole owner’s regulations proceed to install the Communication Facility in coordination with any affected City departments.
- (6) **Execution of Supplemental License** – Upon approval of the Communication Site Application, the Parties shall execute a Supplemental License, which shall be effective as of the date of application approval.

SECTION 7. CONSTRUCTION WORK-REGULATION BY CITY

- (a) **Compliance with Law Required** – The work done by Licensee in connection with the installation, construction, maintenance, repair, and operation of Communication Facility on poles within the Public Rights-of-Way shall be subject to and governed by all pertinent local and state laws, rules, regulations, including the City’s Rights-of-Way Regulations, that are applicable to ensuring the work done does not unduly inconvenience the public in the use of the surface of the streets and sidewalks.
- (b) **Duty to Minimize Interference** – All pole excavations, construction activities, and aerial installations on poles in the Rights-of-Way shall be carried on as to minimize interference with the use of City’s Rights-of-Way and with the use of private property, in accordance with all regulations of the City necessary to provide for public health, safety and convenience.

SECTION 8. CONSTRUCTION, RESTORATION AND MAINTENANCE ACTIVITIES

- (a) **Eligibility of City Pole** – Prior to submitting a Communication Site Application related to the use of a City pole, Licensee shall verify with the City the eligibility of the specified pole for attachment of the Communication Facility. In addition, Licensee shall conduct an engineering load bearing study to determine whether the pole can withstand the added weight of the Communication Facility. If the proposed installation will require pole reinforcement or replacement, the engineering design documents included with the Communication Site Application shall include specifications relating to the proposed pole reinforcement or replacement. Construction activities involving pole reinforcement or replacement shall be coordinated with applicable City personnel, the Rights-of-Way Manager, and the Building Department, as applicable.
- (b) **Compliance with Rights-of-Way Regulations** – In the installation, construction, maintenance, upgrade, and operation of Communication Facility, Licensee shall comply with the provisions of the Rights-of-Way Regulations, including but not limited to provisions pertaining to the following activities:
 - (1) construction activities related to the installation, maintenance, repair, upgrade, and removal of Communication Facility on existing poles in the Rights-of-Way;
 - (2) installation of new poles in the Rights-of-Way;
 - (3) cut or otherwise disturb the surfaces of the Rights-of-Way;
 - (4) disruption of vehicular and pedestrian traffic on Rights-of-Way to a minimum as reasonably necessary to execute the required work;
 - (5) applicable excavation and restoration standards; and

- (6) pavement repairs.
- (c) **Submission of Engineering Plans** – Prior to installation, Licensee shall submit engineering plans to the Rights-of-Way Manager for review and approval in accordance with the Rights-of-Way Regulations.
- (d) **Identification of Utility Lines** – Prior to beginning any excavation or boring project on Public Rights-of-Way, Licensee engage a utility locator service. Licensee has the responsibility to protect and support the various utility facilities of other providers while conducting construction, installation, and maintenance operations.
- (e) **Maintenance and Repair of Communication Facility** – Licensee shall keep and maintain all Communication Facility installed on Public Rights-of-Way in commercially reasonable condition and repair throughout the Term, normal wear and tear and casualty excepted. Licensee shall have the right to conduct testing and maintenance activities, and repair and replace damaged or malfunctioning Communication Facility at any time during the Term.
- (f) **Upgrade of Communication Facility** – Licensee shall have the right to upgrade the Communication Facility with next-generation equipment and innovative new technologies. Prior to making any such equipment or technology upgrade that materially changes or increases the size or weight of the Communication Facility, Licensee shall file a Communication Facility Application with the City Representative, who shall review the application for compliance with the permitted use under this Agreement and to verify that the new installation will not cause any interference with City’s public safety communications system, traffic light signal system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate. Licensee will address any interference issues prior to approval of such application.
- (g) **Coordination of Maintenance and Equipment Upgrade Activities** – Prior to Licensee engaging in planned or routine maintenance activities, or equipment upgrades concerning Communication Facility attached to a City traffic light pole, Licensee shall provide twenty (20) days advance notice to the City Representative in order to coordinate such maintenance activities with City operations of the traffic light system or other public safety functions. Licensee shall obtain a ROW Permit prior to engaging in any maintenance or equipment upgrade activities in the Rights-of-Way regardless of pole ownership. Such twenty (20) day advance notice shall not be required in the case of an emergency.
- (h) **Removal of Non-Compliant Installations** – The City shall have the authority at any time to order and require Licensee to remove and abate any Communication Facility or other structure that is in violation of the City’s Rights-of-Way Regulations. In case Licensee, after receipt of written notice and thirty (30) days opportunity to cure, fails or refuses to comply, the City shall have the authority to

remove the same at the expense of Licensee, all without compensation or liability for damages to Licensee.

- (i) **Reservation of Rights** – The City reserves the right to install, and permit others to install utility facilities in the Rights-of-Way. In permitting such work to be done by others, the City shall not be liable to Licensee for any damage caused by those persons or entities.
- (j) **No Limitation in City’s Operation of Traffic Light Signal System** – The Parties agree that this Agreement does not in any way limit Licensor’s right to locate, operate, maintain, and remove City traffic light poles in the manner that best enables the operation of its traffic light signal system and protect public safety. The City Representative may deny access to City traffic light poles due to operational conditions at the requested site, limited space availability, public safety concerns, future traffic signal system planning, or other operational considerations. Further, nothing in this Agreement shall be construed as granting Licensee any attachment right to install Communication Facility to any specific traffic light pole, other than an approved Communication Site Application and execution of the corresponding Supplemental License under the terms of this Agreement.
- (k) **Coordination of Traffic Light Maintenance Activities and Emergency Response** – Prior to conducting planned or routine maintenance on specific components of the traffic light signal system mounted on poles where Communication Facility has been installed, the City shall provide Licensee thirty (30) days advance notice of such maintenance activities. In advance of such maintenance activities, Licensee shall temporarily cut-off electricity to its Communication Facility for the safety of maintenance personnel. In the event of failure of components of the traffic light signal system for whatever reason, including damage resulting from vehicular collisions, weather related events, or malicious attacks, Licensor will respond to restore traffic light signal operations as a matter of public safety under the emergency provisions outlined in Section 12. Should the events that results in damage or failure of the traffic light signal system also affect Communication Facility, Licensee shall have the sole responsibility to repair or replace its Communication Facility and shall coordinate its own emergency efforts with the City.
- (l) **Relocations.** The City shall have the right to require the Licensee and its customers to relocate, remove, replace, modify or disconnect any Communication Facilities subject to this Agreement located in the Public Rights-of-Way for public purposes, in the event of an emergency, or when the public health, safety or welfare requires such change (for example, without limitation, by reason of traffic conditions, public safety, Public Rights-of-Way vacation, Public Rights-of-Way construction, change or establishment of Public Rights-of-Way grade, installation of sewers, drains, electric lines, gas or water pipes, conduits, cables, or any other types of structures or improvements by the City for public purposes). Such work shall be performed at the Licensee’s expense. The City also reserves the right to

make full use of the property involved as may be necessary or convenient and the City retains all rights to operate, maintain, install, repair, remove or relocate any of its facilities located within the City's property at any time and in such a manner as it deems necessary or convenient. Except during an emergency, the City shall provide reasonable advanced notice to the Licensee of the foregoing, of not less than ninety (90) days. Following notice by the City, the Licensee shall relocate, remove, replace, modify or disconnect any of its Communication Facilities within any Public Right-of-Way within the Notice Period. "Notice Period" shall mean sixty (60) days following City notice to Licensee, or within ninety (90) days of such notice if Licensee has not completed such activities within sixty (60) days but has commenced such activities within such sixty (60) day period. If the City requires the Licensee to relocate its Communication Facilities located within the Public Rights-of-Way, the City shall make a reasonable effort to provide the Company with an alternate location within the Public Right-of-Way. During such relocation, if necessary, in the Licensee's reasonable determination, and consistent with any applicable permit requirements, it may place a temporary installation in the Public Right-of-Way (e.g. cell-on-wheels).

If the Licensee fails to complete the relocation within the Notice Period and to the City's satisfaction, the City may remove the Communication Facilities or otherwise cause such work to be done and bill the cost of the work to the Licensee, including all costs and expenses incurred by the City due to the Licensee's delay. In such event, the City shall not be liable for any damage to any portion of the Network other than damage caused by the City's negligence or willful misconduct. The Licensee shall make full payment to the City within thirty (30) days of receipt of an itemized list of such costs.

SECTION 9. SUPERVISION BY CITY OF LOCATION OF POLES

- (a) **Supervision by Rights-of-Way Manager** – In the event Licensee desires to install poles on Public Rights-of-Way in order to install Communication Facility at a selected Communication Site, such poles shall be owned and maintained by Licensee. Such poles shall be of adequate strength and straight, and shall be set so that they will not interfere with the flow of water in any gutter or drain, and so that they will not unduly interfere with ordinary travel on the streets or sidewalk. The location of all Licensee's personal property, poles, and electrical connections placed and constructed by the Licensee in the installation, construction, and maintenance of Communication Facility shall be subject to the lawful, reasonable and proper control, direction and/or approval of the Rights-of-Way Manager.
- (b) **Pre-Approval by Rights-of-Way Manager** – Prior to submitting a Communication Site Application covering the installation of a new pole or group of poles, Licensee shall verify with the Rights-of-Way Manager the eligibility of the Rights-of-Way location for the proposed pole installation(s). Licensee shall include in the Communication Site Application documentation from the Rights-of-Way Manager approving the proposed pole location in the Rights-of-Way.

SECTION 10. INTERFERENCE WITH OTHER FACILITIES PROHIBITED

- (a) **Interference with Rights of Others Prohibited** – Licensee shall not impede, obstruct or otherwise interfere with the installation, existence and operation of any other facility in the Rights-of-Way, including sanitary sewers, water mains, storm water drains, gas mains, poles, aerial and underground electrical infrastructure, cable television and telecommunication wires, public safety and City networks, and other telecommunications, utility, or City personal property.
- (b) **Signal Interference with City’s Communication Infrastructure Prohibited** – In the event that Licensee’s Communication Facility interferes with the City’s traffic light signal system, public safety radio system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate, Licensee will respond to the Licensor’s request to address the source of the interference as soon as practicable, but in no event later than twenty-four (24) hours of receiving notice.

SECTION 11. COMPLIANCE WITH UTILITY REGULATIONS

- (a) **Compliance with Local Regulations** – All Communication Facility installations shall be in compliance with all relevant legal requirements for connecting the Communication Facility to electricity and telecommunications service. City is not responsible for providing electricity or transport connectivity to Licensee.

SECTION 12. EMERGENCY CONTACTS

- (a) **Coordination of Emergency Events** – In case of an emergency due to interference, failure of traffic light signal system, or any unforeseen events, Licensor will act to protect the public health and safety of its citizens, and to protect public and private property, notwithstanding any provision in this Agreement. Licensor will make every reasonable effort to coordinate its emergency response with the Licensee. To that end, the Licensor will use the following emergency contacts: The Licensee’s network operations center may be reached 24/7 at (877) 244-7889.
- (b) **Licensee’s Duty to Maintain Current Emergency Contacts** – Licensee will maintain the emergency contact information current at all times with the City Representative.
