

Northglenn City Council
January 8, 2024

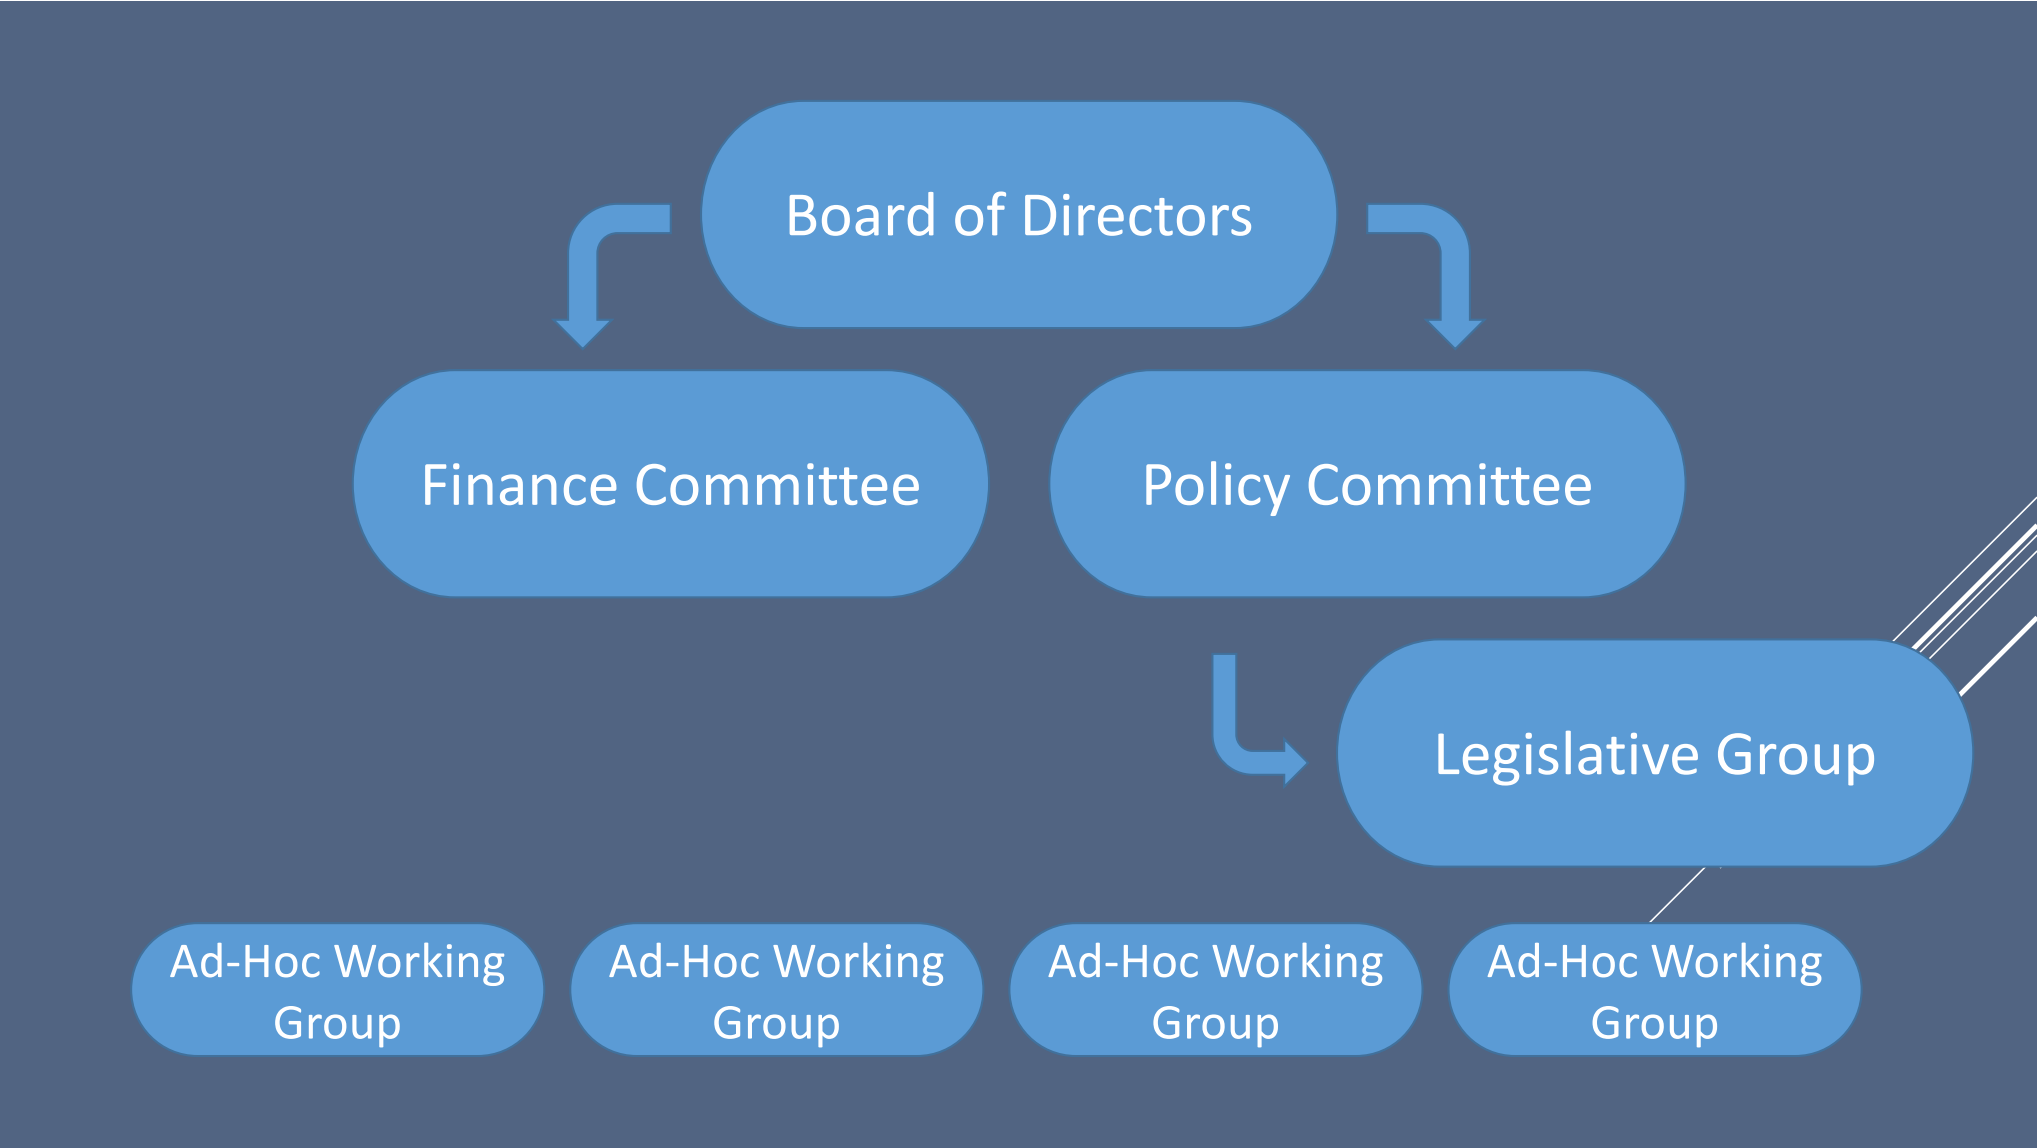

What CC4CA Does

- Policy Advocacy
 - Colorado General Assembly
 - State agencies & rulemaking commissions
 - Federal Congressional delegation
- Workshops & trainings
- Science & policy updates/briefings
- Other resources

CC4CA Members

- Adams County
- Aspen
- Avon
- Basalt
- Boulder
- Boulder County
- Breckenridge
- Broomfield
- Carbondale
- Clear Creek Cnty
- Crested Butte
- Dillon
- Durango
- Eagle County
- Edgewater
- Erie
- Fort Collins
- Frisco
- Gilpin County
- Glenwood Springs
- Golden
- Lafayette
- Lake County
- Larimer County
- Longmont
- Louisville
- Lyons
- Mountain Village
- Nederland
- Northglenn
- Ouray County
- Pitkin County
- Ridgway
- Routt County
- Salida
- San Miguel County
- Snowmass Village
- Summit County
- Superior
- Telluride
- Vail
- Wheat Ridge

2023 Leg Session: Bills of Note

- HB-1294 Protecting Communities From Air Pollution Act
- SB-285 Energy and Carbon Management Regulation in Colorado
- SB-291 Utility Regulation
- HB-1272 Tax Policy that Advances Decarbonization
- Targeted Bills:
 - Agrivoltaics (SB-092)
 - Solar permitting software grants (HB-1234)
 - Solid waste & composting (SB-191, SB-253)
 - Water conservation in oil and gas operations (HB-1242)
- Land use (HB-1255, SB-213)

Regulatory & Policy Advocacy: Recent Highlights

- Advanced Clean Trucks/Low-NOx Standards
- Advanced Clean Cars II
- PUC Clean Heat Rule (& AQCC Recovered Methane)
- Environmental Justice Task Force Recommendations
- Xcel Electric Resource Plan: accelerated coal plant retirements (including Comanche 3 by 2031)
- Implementation of CDOT's New GHG Planning Standards
- 2023 Ozone SIP
- Tri-State committed to 80% GHG reductions by 2030

Engagement Opportunities

- Legislative testimony
- Regulatory hearing testimony & public comment
- Written comments for regulatory hearings
- Outreach to & meeting with state and federal legislators
- Publish LTEs and guest editorials

Impacted communities more than ready for oil and gas rulemaking | OPINION

By Jean Lim
Feb 22, 2023

Jean Lim

Nearly four years after the law was changed to protect public health and safety, the permitting of oil and gas development continues without addressing the cumulative impacts.

In 2018, the Colorado Oil and Gas Conservation Commission approved the wedging of 84 wells among dense residential neighborhoods in Broomfield. Dismayed health and safety advocates turned their efforts to ensuring that this would never again occur, resulting in landmark changes to state law in 2019 to prioritize the protection of public safety, health, welfare and the environment related

to oil and gas development. Nearly four years later, hope hangs by a thread as the Commission has not set a date to We as local electors

Opinion: Praise for Xcel's agreement to stop burning coal by 2031 But it shouldn't swap one fossil fuel for another, and should commit to 100% renewable energy

Vicente Martinez Ortega, Robin Kniech, and Josh Blanchard 1:30 AM MDT on Jul 6, 2022

Selected officials from different parts of the state, we are encouraged by the recent decision by Colorado's Public Utilities Commission regarding Xcel Energy's Electric Resource Plan.

From left: Vicente Martinez Ortega, Robin Kniech, and Josh Blanchard

state's largest electric utility, serving 1.3 million Colorado. Because electricity generation is Colorado's second largest emitter after transportation, this decision will have real and

Pass multi-faceted bill to benefit Colorado air quality | OPINION

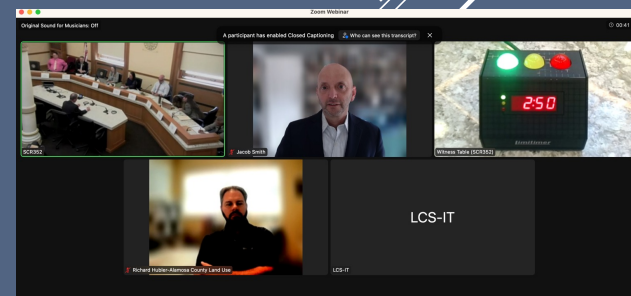

By Julie Pignataro
Apr 25, 2023

Julie Pignataro

My community of Fort Collins, like so many along the Front Range, is grappling with serious air pollution challenges. I have the good fortune to live in a city where the community and my City Council colleagues share a commitment to taking this challenge seriously.

We have made extensive investments in transit, created an expansive low-stress bike network, and prioritized walkability. We are also focusing on compact communities and housing affordability to make it easier for everyone to drive less. This past month, City Council adopted regulations to restrict oil and gas development in our community through land use regulations. We have also partnered regionally to improve air quality — including work with Larimer County to enhance compliance for existing oil and gas wells, partnering with the North Front Range Metropolitan Area to prioritize regional investments in multi-modal infrastructure, or through the Regional Air Quality Council to

Looking Ahead

- Inflation Reduction Act & Bipartisan Infrastructure Law implementation
- Extended Producer Responsibility
- ECMC Cumulative Impacts
- Emissions from oil and gas development (“Midstream Rulemaking”)
- Air Toxics Permitting in Disproportionately Impacted Communities
- Xcel Clean Heat Plan & Transportation Electrification Plan
- Colorado Microgrid Roadmap & GHG Emissions Roadmap 2.0
- 2024 legislative session
