Employer: Self

Occupation: Consultant / Business Owner

I like to utilize and implement, in both my professional and personal life, a problem resolution and analysis strategy to address conflict and resolve

What Traits or Characteristics Do You Feel Can Offer in Problem Resolution? Please List:

problems. My approach is always to mitigate problems before they happen but understand that this is not always realistic. Therefore, my approach is to implement a problem-solving methodology which is characterized as a systematic approach to conflict and problem resolution through a thorough examination of root causes (analysis), the development of a solution-based plan to correct the root causes, and finally the implementation of the solution-based plan to resolve the conflict. Following the implementation of the action plan, an evaluation of the plans effectiveness must be performed to ensure that the identified problem has been resolved.

Briefly Describe Your Interest in Serving on This Board or Commission. Feel Free to Indicate Any Areas of Expertise, Background, Concerns and/or General Information That May Be Applicable.:

I am interested in serving on this board for several reasons. I am a student of political science and have always had an interest in serving my community through advocacy and civic engagement. In addition to this, I am, as most Coloradans are, an avid outdoor recreation enthusiast. I spend a considerable amount of time in the parks and open space areas of Northglenn either by myself, with my dogs, or with my kids.

Having spent time in the majority of Northglenn's park, coupled with the various perspectives of how I use our parks and open spaces, I feel that I can provide valuable insight to enhance the park experience.
