Cell Phone	[REDACTED]
Occupation	Senior Cook Cashier
Employer	Nutrition Services Adams 12 Five Star Schools

Questionnaire

Have you lived in the City of Northglenn for at least 12 months?	Yes
Are you a registered voter?	Yes
Are you aware of the time commitment for serving on Council and will your schedule permit your regular attendance at meetings?	Yes
Are you related to any employee, appointee, or elected official of the City?	No
List your skills, abilities, related volunteer community service and interests relevant to the City Council position.	I served on the Board of Adjustments and the Planning Commission. One of my duties was to review proposed construction projects for feasibility and impact on the surrounding area. I would weigh the pros and cons of the project from experts and concerned neighbors before making a decision.
Why do you want to be appointed to City Council?	I want to be involved in the decisions regarding Northglenn, and to serve the community, in which I've lived, for 31 years.

How will your education, training, experience, and knowledge of the community make you a suitable candidate to serve as a member of the City Council?

My commercial credit analyst background stressed the importance of a methodical and thorough analysis. My service on citizen boards, taught me how to express myself individually and as a group.

In your opinion, what are the most important issues facing the City and how would you propose they be addressed?

Maintaining tax revenue, while making an encouraging environment for businesses to open and succeed. Keeping a small town feel and serving the people within our community.

What vision do you have for the City of Northglenn?

Maintaining a small town feel with the amenities of a larger municipality to meet Northglenn's needs and bring in the surrounding consumer community. I also would like to see pocket parks in areas around the City.

In reviewing the City's 2022 Budget, what are you most excited about and why?

Phase II of the Civic center Master Plan to construct a new City Hall. I thought the old City Hall was awkward and hard to navigate. The new City Hall will complement the new recreation center and be a good gateway building for Northglenn. Also the 104th mill and overlay is much needed and will make the road as nice as Washington, which was mill and overlay last year.

If the Council is debating an item that is, for you, a particularly strong emotional issue, how would you maintain your objectivity?

I want what is best for the City and will make my decisions accordingly, yet I know that a group decision involves many viewpoints. Different viewpoints make a better decision. I'm an even tempered person, who avoids getting emotional.
