Re: CB-1501

I have placed on the agenda for January 13, 2005 under First Reading to set the public hearing on CB-1501. There was a first reading on CB-1501 on Nov. 11, 2004 City Council meeting and at that time it was referred to the Planning Commission. I have been informed that there are many revisions for CB-1501.

At this time would Council consider to set the public hearing and defeat CB-1501 to have a clean paper trail? A new CB will be placed on the agenda soon.
